

## DS-PDP18-EG2 (PET) PIR Detector

DS-PDP18-EG2 (PET) series of passive infrared detectors are equipped with dual-element infrared sensor and 3D Fresnel lens technology. Its detection range can reach 18 meters. When moving objects are detected in the detection area, the detector will output the alarm signal that has been filtered by the circuit, analyzed and calculated by microprocessor algorithm. It is suitable for various indoor scenes.
